

## BEATS BY DR. DRE IS NOW PART OF APPLE.

### studio wireless.

Feel The Music, Not The Wires.

The new Beats Studio wireless Bluetooth headphones are perfect for silencing your critics, wherever you are. They're wireless with Adaptive Noise Cancellation (ANC), a rechargeable battery, and re-engineered sound. The Bluetooth stays connected up to 30 feet so you can roam freely, keep the music going, take calls, skip songs, and change the volume right from the headphones. Hear what you want, when you want.

## FEATURES

### FEEL YOUR MUSIC

The Beats Acoustic Engine™ makes your listening experience personal and real. Our signature DSP software is designed to generate the emotional experience that some of the music industry's

greatest rock, hip-hop, pop, electronic, and R&B producers want you to feel. This is how music would sound if the artist could play it back for you in person.

## **PUT THE WORLD ON MUTE**

Silence the noise from your daily commute or the drama from your loud neighbors with dual-mode Adaptive Noise Canceling. When you're listening to music, ANC automatically strikes the perfect blend between your music and the world outside. If you only want to use the headphone to cancel external noise, the ANC only mode automatically increases the level of noise cancelation, to put the world on mute.

## **WHAT BATTERIES?**

Dead batteries can kill your vibe. The new Beats Studio Wireless comes with a built-in rechargeable battery that lasts 12 hours when using wirelessly and 20 hours when you do decide to plug in. To prevent wasting energy, the Auto On/Off feature turns the headphone off when you unplug from a wired connection and with the Battery Fuel Gauge, you always know how much juice is left. Forget specialized adapters; the Studio Wireless can be charged via micro USB almost anywhere.

## **LIGHTER, STRONGER, AND MORE COMFORTABLE**

When we reimagined the iconic Studio, we designed it like a beautiful sports car and made disciplined choices. It is streamlined with fast curves, smooth surfaces, and no visible screws. We reduced the original weight and gave it a lighter, stronger, and more comfortable headband. The softer ear cups have an ergonomic bellow that creates a flexible custom fit, so you can keep your music all to yourself.

## **Description & Features+**

The world's most famous headphone has been completely redesigned and reimagined. The new Beats Studio® is lighter, sexier, stronger, and more comfortable, with precision sound, Adaptive Noise Canceling, a 20-hour rechargeable battery, and RemoteTalk™. It has all the energy and excitement you expect from Beats, plus a powerful, reengineered sound.

Bluetooth top category with phone option and volume control plus equalizer
